

## 2001 Generation Seasonal Averages

(2001 chosen because this year's averages were the lowest of the last six years.)

Winter = December -- March

Spring = April -- May

Summer = June -- September

Fall = October -- November

	Winter	Spring	Summer	Fall
Big Cliff	8	15	3	3
Cougar	8	14	11	14
Detroit	40	44	48	31
Dexter	4	10	0	0
Foster	7	12	4	7
Green Peter	28	24	23	23
Hills Creek	8	8	10	7
Lookout Point	35	45	38	23
Lost Creek*	15	24	21	10
<b>Sum</b>	<b>153</b>	<b>196</b>	<b>158</b>	<b>118</b>

\* Most recent data for Lost Creek was 1996. Data for Hills Creek and Lookout Point between 1996 and 2001 followed a pattern that was applied to Lost Creek's 1996 data to arrive at the numbers used here. Hills Creek and Lookout Point were used as models due to their regional proximity to Lost Creek.

The sum for each season has been subtracted off the Eugene region customers' load -- see assumption document.
